RESOURCE GUIDE

REDUCING AMERICAN INDIAN TEEN PREGNANCY RATES

We Can Make a Difference

This booklet is a guide to resources that will help make vital decisions for teens and parents. It begins with community tools that will help you and your community to strategize and organize an approach best suited to your needs in reducing American Indian teen pregnancy rates. In addition, supplemental materials are referenced that offer pregnancy indicators, trends and rates that illustrate the significance of bringing awareness to statewide teen pregnancy rates. Finally, there are 13 Planned Parenthood sites across the State of Montana. Planned Parenthood facilities located on or nearest Montana's Indian reservations are listed in the following resources.
